**Music Workshop**

The elements of music, learned at the elementary level, are reinforced through a variety of musical activities in this class. The two instruments that dominate the course work are the recorder and the xylophone. Using these instruments, students develop skills for reading, processing, interpreting and manipulating a symbolic language. Listening comprehension, evaluation and analytical skills are taught and practices through experiences with Chamber Music and Musical Theatre. Students also have the opportunity to present their own research project to the class.
