***Mrs. Mita Bhattacharya, Mrs. Heather Mondillo - Co-Presidents***

MSEPTA is a district-wide organization designed to build strong partnerships amongst teachers, parents, administration, existing PTA's, and the community so that children receiving special education of any kind will be better understood, integrated and embraced by our school and community. We support all parents with children receiving an IEP/504/I&RS plan.

Contact us at [montysepta@gmail.com](mailto:montysepta@gmail.com)!

# Inclusive Learning Community

## We Celebrate Everyone!

At VES we honor and celebrate ALL of the wonderful individuals and beautiful communities found in our classrooms, in all of our school buildings, in our neighborhoods, and in our nation. We do this to ensure that **YOU** always feel welcomed, included, encouraged, and safe.

# VES is AWESOME When Everyone Follows the Rules!

- Be safe
- Take care of property
- Be respectful
- Take responsibility for your actions
- Be in control of your body and words

# Technology Use in School

- All students have chromebooks in the classroom to access google classroom, resources and learning platforms. Additional technology is not needed.
- As stated in our handbook, phones must be kept off and in backpacks during school instructional hours. Smartwatches require a great deal of responsibility and should only be used as a watch if worn at school or kept at home on in a backpack.
- If you need to contact your child during the day, please email the teacher or contact the main office.
- Our goal is to foster connections and relationships between your child and the trusted adults in the building. Students are encouraged to seek out their teacher, counselor, or an administrator.
- As students grow older we want to provide them with the opportunities to advocate for themselves and use the resources available to them for support.

# Technology Use at Home

Before you...

# THINK!

**T**

= Is it True?

**H**

= Is it Helpful?

**I**

= Is it Inspiring?

**N**

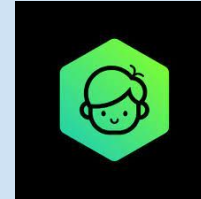

= Is it Necessary?

**K**

= Is it Kind?

# Digital Citizenship

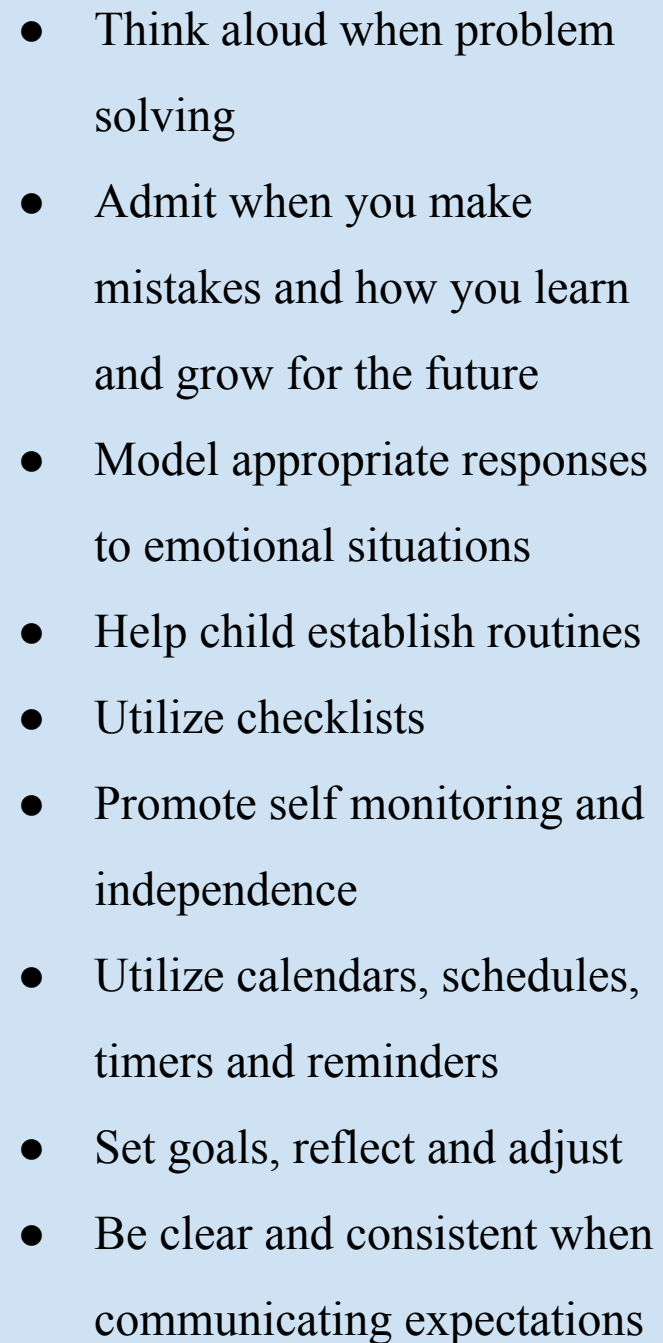

- Parents are a child's first digital citizenship coach and are responsible for monitoring students' use of technology at home. Digital Citizenship is also taught in school.
- Digital interactions at home in the evenings, on weekends, and during time off from school can impact the learning environment in the classroom.
- Students should treat everyone with respect and kindness in person, on the phone and online.
- Parents are encouraged to establish healthy guidelines regarding technology and social media use. The use of monitoring apps and consistent routines and expectations for phone and technology use can safeguard children.
- The American Academy of Pediatrics recommends creating a Family Media Plan to help get you started.
